PROFILE

Mobile Developer with 9+ years of experience in native Android (Kotlin/Java), Flutter, and .NET backend development. Delivered production apps across restaurant management, real estate, booking, and e-commerce. Skilled in Clean Architecture, multi-module development, REST APIs, SQL Server and AI-assisted development with Claude Code.

TECHNICAL SKILLS

Android: Kotlin, Java, Jetpack Compose, Coroutines, Retrofit, Room, Hilt, Koin

Flutter: Dart, BLoC/Cubit, http, sqflite, go_router, get_it

Architecture: Clean Architecture, MVVM/MVI, Multi-Module, Dependency Injection

Backend & Web: C#, ASP.NET Core Web API, EF Core, SQL Server 2022

Tools & AI: Git, Docker, Firebase, GitHub Actions, Claude Code, ChatGPT

PROFESSIONAL EXPERIENCE

Mobile & Full-Stack Developer | EcomFlow | Saudi Arabia (Remote) **Jan 2026 – Present**

- Led technical analysis, architecture, and delivery of multi-tenant restaurant SaaS; coordinated with management and developers.
- Developed two Flutter apps and ASP.NET Core APIs backed by SQL Server; published mobile apps on Google Play and App Store.
- Implemented MyFatoorah payment integration (not yet live); improved API/database security and performance using Docker and Claude Code.

Mobile Developer | Independent | Egypt (Remote) **Oct 2023 – Jan 2026**

- Developed Booking Hotels & Trips, a native Kotlin Android booking app with MVVM, Retrofit, Coroutines, Koin and social sign-in.
- Built Movie Explorer in Flutter with BLoC, Clean Architecture, REST integration and local SQLite offline storage.
- Created a multi-module Marvel Characters Android demo using Jetpack Compose, Hilt, Paging 3 and type-safe navigation.

Android Developer | TECHCUBICS | Egypt (Remote) **Sep 2022 – Sep 2023**

- Delivered native Kotlin e-commerce and clinic apps using MVVM/MVI, Coroutines, Retrofit and modular architecture.
- Integrated REST APIs, Firebase Analytics, dependency injection and XML-based Android UI.
- Performed unit testing for reliability and usability; published more than two Android applications on Google Play.

Android Developer | CODEEVOO | Germany (Remote) **Mar 2021 – Apr 2022**

- Built a Kotlin golf news Android app integrating WordPress REST APIs, Room, Koin and Firebase Cloud Messaging.
- Redesigned a chat application user interface to improve usability and visual consistency.
- Developed a web localization tool exporting translated Android XML resources from English to German.

Co-Founder & Full-Stack Developer | iMATCH | Egypt **Mar 2017 – Jan 2021**

- Led mobile, backend and design teams, gathered client requirements and translated them into delivered solutions.
- Developed Android applications, C#/.NET backends and SQL Server dashboards for real estate, bookings and e-commerce.
- Published 5+ Android apps on Google Play and managed project delivery and integrations including We Accept payments.

SELECTED PROJECTS

Production Projects

EcomFlow Android Merchant iOS Manager iOS

Flutter (Android / iOS / Web) | ASP.NET Core Web API | SQL Server

Built two Flutter apps and backend APIs for a multi-tenant restaurant SaaS covering brands, branches, tasks and requests.

Booking Hotels & Trips Watch video

Kotlin | MVVM | Retrofit | Coroutines | Koin | View Binding | XML | Navigation | SafeArgs

Developed the Android hotel and trip booking client for Saudi Arabia, integrating REST APIs and Google/Facebook sign-in.

Orouba Community video Listing video

Android (Java / Kotlin) | C# / ASP.NET | SQL Server | Admin Dashboards | REST APIs

Delivered two real-estate apps: a residential community management app and a property-listing app, with backend services and admin dashboards.

Allonsy Watch video

Android (Java / Kotlin) | C# / ASP.NET | SQL Server | We Accept Payments

Built an entertainment, venues and events booking app with backend services, dashboards and online payment integration.

GolfSports Watch video

Kotlin | Retrofit | MVP/MVI | Room | Koin | WordPress REST API | FCM

Developed a golf news Android app for CODEEVOO, integrating WordPress news and media APIs.

Restaurant Management System

C# | ASP.NET Web Forms | SQL Server | HTML / CSS / JavaScript

Developed a web-based restaurant management system for Union Lounge.

Technical Projects (Demos)

Movie Explorer GitHub

Flutter | Dart | BLoC | Clean Architecture | http | sqflite | go_router | get_it

Created a movie browsing demo using a public API, SQLite offline persistence and dependency injection.

Marvel Characters GitHub

Kotlin | Jetpack Compose | Multi-Module | Hilt | Coil | Paging 3 | Type-Safe Navigation

Created a modular Android demo consuming a public API with modern Compose architecture.

EDUCATION & LANGUAGES

B.Sc. Management Information Systems — Egyptian High Institute, Alexandria | Arabic: Native | English: Very Good
