Mohammed Alkhayat

MOBILE & FULL-STACK DEVELOPER

Alexandria, Egypt | +20 111 281 7226 | mz.alkhayat@hotmail.com | LinkedIn | GitHub | Website

PROFILE

Mobile & Full-Stack Developer with 9+ years of experience in Android, Flutter, and .NET backend development across Real Estate, Hospitality & Booking, E-commerce, Healthcare, and Restaurant Management. Skilled in building scalable, secure applications using Clean Architecture, REST APIs, and SQL Server, with a focus on performance and AI-assisted development using Claude Code.

TECHNICAL SKILLS

Mobile:	Flutter, Dart, BLoC, Kotlin, Java, Jetpack Compose, Coroutines, Retrofit, Room
Architecture:	Clean Architecture, MVVM, Multi-Module, Dependency Injection
Backend:	C#, ASP.NET Core Web API, EF Core, SQL Server 2022, REST
Tools & AI:	Git, Docker, Firebase, GitHub Actions, Claude Code, ChatGPT

PROFESSIONAL EXPERIENCE

Mobile & Full-Stack Developer | EcomFlow | Saudi Arabia (Remote) **Jan 2026–Present**

- Led technical analysis, architecture and implementation; collaborated with management and guided developers.
- Developed and published two Flutter apps and .NET 10 / SQL Server APIs; integrated MyFatoorah payments.
- Strengthened security and reduced database reads by 45–800× in selected workloads; used Claude Code and ChatGPT for development, debugging and testing.

Mobile Developer | Independent | Remote **Oct 2023 – Jan 2026**

- Built Flutter Movie Explorer with BLoC, Clean Architecture, REST and SQLite offline storage.
- Developed native Android booking app using Kotlin, MVVM, Coroutines and social sign-in.
- Created multi-module Jetpack Compose Marvel app with Paging 3, Hilt and type-safe navigation.

Android Developer | TECHCUBICS | Egypt (Remote) **Sep 2022–Sep 2023**

- Delivered Kotlin-based Android e-commerce and clinic applications using MVVM/MVI patterns.
- Implemented REST API integration, modular architecture and Firebase Analytics.
- Performed unit testing and published 2+ applications to Google Play.

Android Developer | CODEEVOO | Germany (Remote) **Mar 2021–Apr 2022**

- Built Android news application for a golf publication with Kotlin and REST integrations.
- Redesigned chat application UI to improve usability and visual consistency.
- Developed a localization utility exporting Android XML translations from English to German.

Co-Founder & Full-Stack Developer | iMATCH | Egypt **Mar 2017–Jan 2021**

- Led mobile, backend and design teams, translating client requirements into delivered solutions.
- Developed Android apps and C# / SQL Server backends for real estate, booking and commerce.
- Published 5+ Android applications on Google Play and managed client-facing project delivery.
